

HONORING

Black History Month

Alzheimer Disease Research Center
&
Alzheimer's Association

Jointly Presents

Tea & Talk

“African Americans and Alzheimer’s Disease— Our Brain Health”

While we take the time during Black History month to reflect on the achievements of the African Americans in our communities, it is also an ideal time to consider the future health of the African American community, and the diseases that will challenge its growth, specifically Alzheimer’s. Please come and join us for some good discussion, tea and a demonstration that promotes a healthy brain.

Arnold’s Tea

502 E. Ohio Street

Pittsburgh PA 15212

Thursday, February 21, 2019

5:00pm—7:00pm
