

4

for the

FUTURE

The University of Pittsburgh
Alzheimer Disease Research Center
focuses on learning about aging and the brain.

Participants are needed for this research study!

You will each receive a comprehensive evaluation, at no cost to you, including:

- A physical exam
- A review of your medications
- Paper & pencil memory testing

You will each be invited to come back in about a month to receive personalized feedback.

Parking will be provided.

All information will be kept confidential.

To learn more, please contact Melita at 412-692-2700 or terrymh@upmc.edu
