

ARE YOU EXPERIENCING SENIOR MOMENTS?

The University of Pittsburgh Alzheimer Disease Research Center needs your help to better understand how mild memory changes may or may not relate to the future development of Alzheimer's disease.

We are looking for volunteers age 60 and older to participate in a federally-funded research study.

You will receive a comprehensive evaluation, at no cost to you, including:

- A physical exam
- A review of your medications
- Paper & pencil memory testing

Feedback will be provided after your evaluation.

Parking will be provided.

All information collected will be kept confidential.

Please call to learn how you can join us in the fight against Alzheimer's disease.

Call MaryAnn at 412-692-2700
